

The safe and hygienic double Pumpset

DOUBLE PUMPSET

Save time and express precious breast milk even more efficiently

Reduce the express time by 50 % with this Double Pumpset, encourage the build up of your milk supply and speed up the milk ejection reflex.

Important features at a glance

- Contains 2 Ardo Pumpsets
- Particularly suited to long-term use of an electric breastpump
- The "Vacuum Seal" Technology creates a 100 % secure barrier against pathogens and contamination of the breast milk. Equally, the pump unit is protected against milk leaking into it
- Made of premium Bisphenol-A free polypropylene
