

Ardo electric breastpumps

Remarkably quiet and efficient

Ardo breastpumps are recommended by leading hospitals – and for good reason. They are easy to operate, particularly powerful and remarkably quiet. Ardo has developed a double electric breastpump, the Calypso Double Plus, for mothers everywhere who still want to enjoy their freedom when breastfeeding and who want to express milk even more efficiently. Studies prove that double pumping reduces the expressing time by half.

Individual Phases

Flexible: the suction strength (vacuum) and suction frequency (cycle) settings can each be adjusted individually.

Closed System Vacuum Seal

Safety and hygiene: the "Vacuum Seal" technology provides protection against contamination.

Ultra Silent and Gentle

Silent and gentle: Ardo breastpumps are remarkably quiet, so they can be used discreetly at any time.

Warranty Plus

Unique warranty: Ardo offers a full warranty for an operating time of 400 hours.

Tested and recommended by professionals.
Approved by mums.

 ARDO

Happy Mothers for Happy Babies

Breastfeeding products which inspire

99.04.038 / 02.2019 / V01

SWISS QUALITY 

 ARDO

Happy Mothers for Happy Babies

The birth of a baby is a time of great joy, but it's also a time of major change, with fewer opportunities for leisure pursuits. That's why Ardo puts so much thought into developing products that make breastfeeding so much easier for new mums.

Ardo products save valuable time and make it easier for mothers to combine looking after their baby with leisure time or with a return to work.

The Swiss company also takes the quality and reliability of its breastfeeding products extremely seriously. Because at Ardo, our years of experience have taught us that if mum is happy, baby is happy too.

TULIPS

NIPPLE SHIELDS
