

**The Breastpump for working mothers and mothers-on-the-go**

## **CALYPSO-TO-GO**

### **The gentle Breastpump for complete mobility**

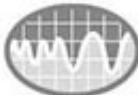

The Calypso-To-Go is the ultimate collection with all you need to be totally mobile when you are expressing. The collection includes a double breastpump, a conversion handle plus lots of breastfeeding accessories, easy to transport in a stylish breastfeeding bag. Accessories also include: cool bag and cooling elements for storing breast milk.

The Calypso has an extended guarantee and calculates that an average mum could express for two consecutive babies whilst benefiting from a full no-quibble manufacturer's warranty.

## Important features at a glance

- In stimulation mode or in expression mode, vacuum and cycles can be individually adjusted at any time!
- With cool bag and related accessories
- Conversion handle included so that it can be used as a manual pump as well
- Calypso comes as either a mains or a battery-powered unit
- Three different breast shell sizes included
- Complete protection from contamination and pathogenic agents, thanks to "Vacuum Seal" Technology
- Optiflow actively massages the breast
- Efficient and comfortable expressing experience
- The compact design and the reduced sound level allow discreet expression
